EDUCATION

University of North Texas, Denton, Texas

Master of Science of Economic Research, December 2013

GPA: 3.5

Relevant Courses: Applied Econometrics, Time Series Forecasting, Adv. Econometrics, Adv. Macro/Micro Economics

Independent Study: Fit a panel data model studying the fixed effects of how broadband technology affects GDP across 50 nations and 7 years. Found that wireless broadband technology has a positive influence on GDP. This is true as an independent input once labor and capital are accounted for and as a technology factor modifying capital.

Bachelor of Business Administration in Economics (Minor in Spanish), May 2011

GPA: 3.5

Honors: President's List, Dean's List

Activities: Integrated Business Case Competition, Fourth Place

Study Abroad: AIP Language School, Valencia, Spain (Summer 2007)

Relevant Courses: Empirical Linear Modeling, Excel Development Workshop, Differential Equations, Multivariable Calculus, Linear Algebra & Vector Geometry
